

Registration Summary

AIM is excited to expand upon our successes and further enhance our Data Support Community of Learning (COL) for 2022-2023!

This document covers key registration details for AIM's 2022-2023 Data Support COL. Further details and frequently asked questions can be found in our **formal registration packet**.

Overview

AIM's Data Support COL is a collaborative learning series with the goal of making data for quality improvement approachable and actionable. The 2022-2023 Data Support COL will focus on supporting data for quality improvement in hospital settings.

Tenative Educational Offering Schedule

- 1. Getting Started with Data:** Assessing and Choosing a QI Data Collection Platform
► **Day & Time:** December 7, 2022, 3-4:30PM EST
- 2. Too Many Measures and Too Little Time:** Strategies for Prioritizing and Adapting QI Data Collection for Lower-Resourced Settings
- 3. Using Data for QI:** Interpreting Variation and Trends in Lower-Volume Facilities
- 4. Making Data-Driven QI Sustainable:** Leveraging the Electronic Medical Record
- 5. Leveraging Multiple Data Types for Improvement:** Chart Abstraction and Multidisciplinary Case Review for Inpatient QI
- 6. Using Data to Understand Inequities:** Strategies for Collecting Race, Ethnicity, and Language Data in Clinical Settings
- 7. We Collected the Data, Now What?** Visualization Best Practices for Disaggregated Data.

Educational offerings are 90 minutes in length and will begin in early December 2022 and end in June 2023.

Who Can Register?

- ▶ Any AIM-enrolled state or jurisdiction team
 - ▶ States who received funding through the State Maternal Health Innovation (MHI) & Data Capacity Program (HRSA-22-249) are **highly encouraged** to register and participate
- ▶ Any state or jurisdiction interested in AIM
- ▶ **New!** Hospital and facility-based teams participating in AIM or interested in data and perinatal quality improvement

How Do I Register?

Complete a short **Qualtrics survey** to register for AIM's Data Support COL by November 30, 2022. After registering, we will share Data Support COL educational offering days and times, as well as information for additional support and resources. You are welcome to participate in the Data Support COL in whatever capacity you choose.

Additional Supports & Resources

Office Hours

Each month faculty from the educational offering will facilitate 90 minutes of office hours to provide targeted one-on-one and small group technical assistance on the topic(s) covered during the session. Days, times, and registration information for office hours will be shared in the coming weeks and months.

Data Coaching

If you are interested in using data for quality improvement but are not sure where to start, sign-up for data coaching with the AIM Data Team. Data coaching will be held from December 2022 through August 2023, and you may choose 30- or 60-minute data coaching time frames to receive targeted assistance on a wide range of data topics. Sign up for data coaching via **Microsoft Bookings**.

Supplemental Funding

If you are a state or jurisdiction team with an executed subaward agreement with ACOG you may apply for supplemental funding for data and reporting. Supplemental funding proposals can be submitted as a project narrative through AIM's Supplemental Funding Form.

Further Information
