

ALLIANCE FOR INNOVATION
ON MATERNAL HEALTH

2022 Data Support Community of Learning

The Alliance for Innovation on Maternal Health (AIM) developed a Data Support Community of Learning (COL) to address common data needs in a group learning setting. The COL consisted of monthly educational sessions, individualized technical assistance with expert faculty via office hours, and monthly state team report-outs to facilitate peer learning.

8 Monthly Educational Sessions

1. **Planning QI Initiatives with Evaluation in Mind**
2. **Data Collection Strategies for Facility-Reported Measures**
3. **Severe Maternal Morbidity**
4. **Data Quality: Hospital Records vs. Administrative Data**
5. **Data Quality: Race, Ethnicity, Social & Structural Drivers of Health (SSDOH)**
6. **QI Visualization Best Practices**
7. **Monitoring & Reporting Data from QI Initiatives**
8. **Evaluation Methods: What to Do with the Data You Collected**

SESSION WITH THE HIGHEST ATTENDANCE

Severe Maternal Morbidity

112 Attendees

SESSION RATED MOST HELPFUL

Data Quality: Race, Ethnicity, SSDOH

100% Rated 4+ Stars
(5-point scale)

AIM Ahead: Plans for 2023

- More opportunities for peer learning
- Expanded office hours options with expert faculty
- Data coaching
- Supplemental funding opportunities
- New educational session topics
